Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Arugula	Rocket						21 days baby; 40 days full size. The standard salad arugula thrives in cool weather. Delicious salad green has a spicy flavor when mature. Long, dark green, lobed leaves are suitable for salads or bunching. White flowers with dark pink veins make attractive spicy additions to salad mixes. <i>Eruca sativa</i> .	
Arugula	Wild, Dragon's Tongue						50 days. Dragon's Tongue will tempt you with its rich green leaves accented by stunning red veins and midrib. Its complex flavor is zesty and peppery. Wild arugula has a slightly stronger, more complex flavor than regular arugula. <i>Diplotaxis tenuifolia</i> .	
Arugula	Wild, Rocky						40-50 days. Rocky is a fast-growing wild type arugula that grows in a compact rosette form. Wild arugula has a slightly stronger, more complex flavor than regular arugula. Flavor can be described as peppery or mustardy with a hint of nuttiness. <i>Diplotaxis tenuifolia</i> .	
Basil	Cardinal						Tightly packed, cardinal red blooms are a striking addition to any herb garden. Strong, deep burgundy stems hold fragrant, tasty, bright green leaves. Vibrant and colorful throughout the summer. Also great for pesto. Height 24-30"	
Basil	Italian Large Leaf						Large plant, 18-24" tall, 12-15" wide with medium-dark green leaves up to 3" long. Sweeter pesto type with high yields. Pinch back constantly (harvesting the leaves) to keep bushier with more production. Full sun, moist, rich soil. (Genovese)	
Basil	Italian Pesto Basil						Imported Italian basil has glossy dark green leaves and full-bodied zesty flavor. The classic strain for pesto. 12-18" tall.	
Basil	Italiano Classico						Seeds from Italy. Classic basil with brilliant silky green leaves; very aromatic; with sweetness and the distinctive flavor of basil. Great for making pesto.	
Basil	Lemon, Mrs. Burns'						The best tasting lemon basil, with a sweet, tangy flavor. Very bright green, 2-1/2" long leaves with white blooms make this basil both attractive and intensely flavorful. Pinch off buds for bushier habit. Grows 18-24" tall.	
Basil	Lime Basil						Heirloom. Lime flavor mixed with basil. 2" green leaves. Use for chicken, fish, salads, ice tea. Substitute for lemongrass in Asian recipes. 12-20" tall.	
Basil	Nufar						Disease resistant Italian large leaf type. For field or greenhouse growing. Leaves up to 4" long, sweet scent and flavor. 24-30" tall.	
Basil	ProEasy						A full-bodied Genovese type with compact habit. Height: 18-24". Width: 12-15". Cut-and-Come Again. Great disease resistance and unbeatable vigor mean big yields.	
Basil	Thai						Thai basil is a key ingredient in Asian cuisine (including Thai red and green curry), offering a sweet, anise, clove flavor. Green leaves on purple stems with purple flowers. Grows well in containers. 12"-24" tall.	
Cucumber	Crystal Apple	(65 days)					Heirloom. Small 3" oval fruit are bright, creamy white about the size of a small apple; sweet, mild and very tender. You can eat them skin and all.	
Cucumber	Lemon	(65 days)					Unusual cuke is bright lemon yellow, round, and best when harvested at 2" across for either pickles or salads. Flavor is sweet, mild, never bitter, with an old-fashioned cucumber flavor with a hint of nuttiness. Heirloom

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Cucumber	Marketmore	(60 days)			OP		Popular variety is a consistent producer of delicious, mildly sweet cucumbers with dark green protective skin. Highly disease-resistant and produce over a long season in hot or cool weather. A selection from Marketmore 76.	
Cucumber	National Pickling	(52 days)					This is the pickling cuke that pickle growers asked for. High yielding, early fruiting on vigorous, medium vines. Retains quality over a long season. Dark green fruit can be picked small at 2"-3" long for gherkins or larger at 5"-6" long for full sized pickles	
Cucumber	Northern Pickling	(48 days)			OP		A high-yielding, early variety for salads and pickling. Medium green fruits bear early and set heavily on short, space-saving vines. Pick frequently at a small size to maintain good color and fruit. Black spine.	
Cucumber	Richmond Green Apple	(70 days)					Unique heirloom from Australia. Fruits are the size of a lemon but are a beautiful light green color. Very mild, sweet and juicy. Hard to find and fun to grow.	
Cucumber	Spacemaster	(56 days)					Compact cucumber ideal for containers. Short hardy vines produce slender, dark green fruits 7.5" long. Prolific and great in salads or plain. Height 6-8"; spread 26".	
Cucumber	Striped	(60-70 days)					Heirloom. Introduced from Armenia to Italy in the 1400's. This unusual and attractive 12"-18" cucumber is always sweet and crispy, even when fruit is large. Thin-skinned, green with ridges has a dense flesh, few seeds, and a pleasant, mild flavor. Also known as the Painted Serpent. Handle carefully to avoid bruising.	
Eggplant	Behold Hybrid	(60 days)			HY		Violet-purple fruits with white stripes, tender skin, very few seeds, and a very sweet, non-bitter flavor. Recommended for marinating or grilling whole. Fruit size: 4-8"; Height: 3-4 ft.; Spread: 30-35".	
Eggplant	Black Beauty	(75-80 days)			OP		Popular heirloom variety. Glossy fruits become quite large, but are well shaped and perfect for thick slices for grilling. Harvest when fruit is shiny and before skin becomes dull. Harvest at about 6" long.	
Eggplant	Nadia Hybrid	(70 days)					Glossy dark purple-black skin and outstanding fruit and production qualities make this variety special. Its classic Italian shape is an elongated oval to 9" long and fruit has a very firm flesh with a slow seed development. Sets well even under cool conditions.	
Eggplant	Orient Express Hybrid	(58 days)					Outstanding early productivity. Attractive, slender, 8-10", glossy black fruits in the long Oriental style. Sets fruit in cool weather as well as under heat stress. Tender, delicately flavored, and quick cooking. Purple calyx.	
Eggplant	Purple Long	(85 days)					Prolific Italian variety. Heavily branched plants typically yield 4 or more dark-purple, cucumber-shaped fruit 8"-10" long.	
Flower	Cosmos, Cranberries						'Cranberries,' Double Click, Cosmos bipinnatus, (SS) - 3' - 4' tall, 2" - 3" beautiful carmine-red cranberry blooms in popular double click series, most are double flowers. Long flowering season.	
Flower	Cosmos, Cupcake						Cosmos bipinnatus, (PS) - 4' tall, dark and light pink and white flowers, cut and come again flowers, deadheading produces more flowers. Wonderful new bowl shape with center pinwheel of smaller petals. Very, very cool. Easy and disease resistant	
Flower	Cosmos, Double Click, Blend						Cosmos bipinnatus, (Gurneys) - 4' tall, huge, frilly double blooms in shades of red, pink and white. Cut and come again flower. Great cut flower.

Flower	Cosmos, Double Click, 'Snowpuff						Double Click, Cosmos bipinnatus, (PS) - 4' tall, white frilly double flowers in popular Double Click series, birds and butterflies love them!	
Flower	Cosmos, Lemonade						Cosmos bipinnatus, (B) - 20" - 24" tall, Lemon petals with white centers. Unique color for cosmos. Great in containers or borders. Beautiful!	
Flower	Marigold, African, Crackerjack						Tagetes erecta, (BI) - 3' tall, 4" large double blooms in tangerine orange, rich gold and lemon yellow. Great with purple or blue flowers. Long lasting.	
Flower	Marigold, African 'Alaska'						Tagetes erecta, (SS) - 2.5' - 3.5' tall, wavy-edged double flower pale primrose yellow, debuted in 1961, almost disappeared and has now reappeared. Easy to grow!	
Flower	Marigold, African 'Kee's Orange'						Tagetes erecta, (SS) - 1.5 - 2' tall, wonderful orange double flowers that are aromatic. Petals are used for food coloring. Named for Kees Sahin, a famous Dutch breeder.	
Flower	Marigold, African 'Yellow Supreme'						Tagetes erecta, (SS) - 2.5 - 3' tall, lemon yellow crinkly-edged flowers, very productive. Debuted in 1935, almost disappeared.	
Flower	Marigold, Inca II Gold						Tagetes erecta (PS) - 12" tall, 3" - 4" double gold blooms. This a sturdy plant with large early-blooming flowers.	
Flower	Marigold, Lemon Drop						Lemon Drop - Tagetes erecta, (BI) - Dwarf plant, 6" to 8" tall, lemon yellow flowers. Great border plant and planted in mass. Beneficials love them.	
Flower	Marigold, Moonstruck Yellow						Tagetes erecta, (PS) - 12" - 15" tall, 4" - 4.5" double very large blooms. Great plant, easy.	
Flower	Marigold, Strawberry Blonde (Limited Quantity)						(B) - 8" - 10" tall. Dwarf French bicolor marigold in marvelous new colors: pastel pink, rose and yellow. Bushy and vigorous plant. NEW!	
Flower	Marigold, Vanilla						Tagetes erecta, (PS) - 16" tall, 3" light cream to pale yellow double blooms, butterflies love, repeat bloomer.

Ground Cherries	Goldie	(75 days)					This old-fashioned ground cherry bears 1/2"-3/4" sweet golden berries inside papery husks. The flavor is quite sweet and a bit wild. The short spreading vines produce abundantly. Fruit is ripe when the light brown papery husk has folded back to reveal the golden berry. Ripe fruit will soon fall to the ground. Fruits can be eaten raw, dried like raisins, frozen, canned, or made into preserves and desserts. Open pollinated.	
Ground Cherries	Pineapple	(75 days)					Out of the ordinary yellow ground cherry has a flavor that is sweet, fruity, and really does remind you of a pineapple. Makes a unique and wonderful salsa. The short spreading vines produce abundantly. Fruit is ripe when the light brown papery husk has folded back to reveal the golden berry. Ripe fruit will soon fall to the ground. Open pollinated.

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Herb	Chives, Purlly						Perennial. Versatile, medium-sized leaves. Mild onion flavor. Leaves are a key culinary herb, while the attractive globe-shaped blooms are used as an edible garnish. Plant is also ornamental. Height 12-18". <i>Allium schoenoprasum</i>	
Herb	Cilantro, Santo						A strain that's slow to flower, with an upright habit and finely cut leaves. Indispensible for Mexican and Oriental cooking. (Coriander)	
Herb	Dill, Dukat Leafy						An especially sweet and mellow dill bred in Denmark for traditional Scandinavian dishes. The fine cut, blue green leaves hold longer than other varieties. Let some plants bloom to give nectar to butterflies and then harvest the pungent seed heads to season pickles.	
Herb	Fennel, Bronze						Feathery bronze-red colored foliage with sweet flavor. Nonbulbing type. Leaves nice addition fo salads, cole slaw, and dressings. Very ornamental. Perennial.	
Herb	Marjoram, Zaatar						This popular Middle Eastern spice is aromatic and delectable. A wonderfully heady, richly scented and spicy seasoning that combines the flavors of Marjoram, Oregano and Thyme. Height 3 ft.; Width 3 ft. Tender Perennial. <i>Origanum syriaca</i> .	
Herb	Oregano, Greek						Perennial. Heavy oregano aroma. Characteristic dark green leaves with white flowers. . Excellent flavor and very hardy in the garden. 12-18" tall. <i>Origanum vulgare hirtum</i> .	
Herb	Parsley, Italian Gigante						Italian heirloom. Hardy biennial likes full sun or partial shade. Exceptionally large, flat glossy leaves with a sweet and mellow flavor. Height 12-18".	
Kale	Scarlet	(50-60 days)					Heirloom. Beautiful purple-red kale with frilly leaves that are delicious in a salad or use the plant as an edible landscape specimen. Very cold tolerant and tastier after a frost.	
Kale	Starbor Hybrid	(55 days)					For "one-cut" harvest. The finely curled, dark blue-green leaves can be harvested with one cut instead of being stripped off the plant individually. The compact plants produce leaves that are very uniform, resist yellowing, and have good flavor. Perfect for harvesting the whole plant at 12-18". Exceptionally cold tolerant.	
Kale	Toscano	(30 days baby; 65 days mature)					Italian heirloom. Lacinato or "dinosaur" type. Unique leaf type noncurled but heavily blistered (savoyed). Rich, tender leaves have a softer texture than curly green kales. Tolerant of hot and cold weather. <i>Brassica oleracea</i> .	
Melon	Ambrosia Cantaloupe	(86 days)					A top selling cantaloupe. Luscious, extra-sweet, and juicy with a delectable aroma. 6" melons average 5 lbs. each. Vines are resistant to powdery mildew and yield bumper crops.	
Melon	San Juan Hybrid	(78 days)					Ananas type. Superior flavor. Heavily netted oval fruits average 4.5 lb. Wonderfully aromatic, pear-like, sweet flavor. Ivory colored flesh. Fruits average 8" x 6.5". Fruit is ripe when skin is mostly yellow and melons slip from vine. Disease resistant.	
Melon	Sarah's Choice Hybrid	(76 days)					Cantaloupe type. Sweet and juicy flesh has been a winner in trials. Attractive oval 3 lb fruits. Disease resistant	
Melon	Savor Hybrid	(78 days)					French Charentais type. Unsurpassed eating quality. Small, 2 lb melons are faintly ribbed, with a smooth gray-green rind and dark green sutures. Sweet and aromatic, deep orange flesh.

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Mustard	Mizuna	(40 days)					Essential salad mix ingredient. Unique mustard green of Japanese origin. Mizuna produces dozens of pencil thin white stalks with deeply cut, fringed leaves. Mild flavor. Continues to produce for several weeks from one planting as a cut and come again product.	
Pepper	Anaheim	(80 days)				Medium hot	Historic chili developed over 100 years ago. It was selected to have a milder, freher flavor than most chilis, with thick, meaty walls, and large peppers up to 8" long. Good roasted, fresh, dried and canned. Most often used when it is dark green, but it will become hotter and turn bright red as it matures.	
Pepper	Ancho (Poblano)	(65-80 days)				Medium hot	When fresh and still green, these mildly hot heart-shaped peppers are stuffed and made into chiles rellenos. When mature they are dark, rust red, and richly flavored. 4" long tapering to a blunt point. Called Ancho when dried, Poblano when fresh.	
Pepper	Cal Wonder	(65-85 days)				Sweet Bell	Large, blocky, thick-walled peppers with 3-4 large lobes perfect for stuffing. Glossy, deep-green peppers turn red at maturity. Large upright plants are prolific producers. Heirloom.	
Pepper	Carmen Hybrid	(75 days)				Sweet Non-bell	Sweet peppers in the Italian bull's horn style mature at least a week earlier than comparative types. Beautiful fruits have the traditional horn shape and grow to 6 in. long and 2-1/2 in. wide, with wide shouldera tapering to a point. (2006 AAS winner)	
Pepper	Fresno	(75 days)				Medium hot	If you grow only one hot pepper this year, consider making it Fresno. This mildly hot pepper is a very heavy producer, with consistently glossy, high-quality, 2" by 1" fruit, on 24-30" plants. It needs little water during the growth season compared with many others, and you can tailor its heat level by picking it green for mildest flavor, deep red for hottest, and orange for a happy medium. Not suitable for drying into spice but ideal for eating fresh, stuffing, canning, pickling, frying, sauteing, and more.	
Pepper	Jalapeno, Early Jalapeno	(60-65 days)				Hot	Ideal for Mexican dishes. Deep green fruits mature to red. Sausage-shaped fruits, 3-1/2" by 1-1/2", are also perfect for pickling. Matures earlier than regular Jalapeno. Compact, non-brittle bushes.	
Pepper	Jimmy Nardello	(80 days)				Sweet	One of the sweetest non-bell peppers you'll ever taste. Bright red, 6" to 8" long peppers are about 1" wide and somewhat wrinkled in appearance. Great for frying or salads. Expect large yields.	
Pepper	Karma Hybrid	(68-80 days)				Sweet Bell	Large 5-6" long by 3-4" wide; thick sweet walls; matures from dark green to bright red and tastes great! 25-35" tall; needs staking to support their huge bounty. TMV resistant.	
Pepper	Marconi, Giant	(63-70 days)				Sweet Non-bell	Hybrid large tapered peppers grow to 8" by 3", with a sweet smokey flavor. They resemble a cross between a Marconi and a Lamuyo-type pepper. Sweetest when red. Great fresh, grilled or roasted. Resistant to tobacco mosaic virus and potato Y virus. Plants bear well despite cold, wet, or dry conditions.	
Pepper	Marconi, Red	(70 days)				Sweet Non-bell	Wonderful sweet long red Italian-style peppers (up to 12" long x 3" across); good producer; thin walled. Ripens from green to red. Good green or mature; good for salads and frying.	
Pepper	Padron	(50-65 days)				Mild to Hot	Spanish heirloom and tapa bar favorite. Traditionally used in its immature green stage, when it is picked quite small (thumb/olive size), sauteed in olive oil, and served in a bowl with stems on. Peppers are mild when small and green, but get hotter as they grow. At full maturity, they are about 2-1/2" long and 1-1/4" wide, deep red and fiery hot. Vigorous, prolific plants.

May 12, 2018 9:00AM to Noon at the Master Gardener Demo Garden, 1036 West Main Street, Grass Valley (on the NID grounds)**

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Pepper	Pasilla (Pasilla Bajio)	(78 days)				Mildly Hot	Starts off dark green and ends up dark brown. Typically grows 8" to 10" long and is called Pasilla when dried. Featuring a rich smoky taste, the pasilla often turns up in dried whole form or as a powder in Mexican salsas as well as in mole and adobo sauces. It creates an interesting twist in the flavor and appearance of the standard red-chile enchilada sauce and in many other dishes. Strong, upright plants produce heavy yields.	
Pepper	Piquillo	(90 days)				Sweet	Seeds from Spain. Triangular shaped sweet pepper 3" to 4" long and 1-1/2" to 2-1/4" wide. Thick flesh, a strong red color and a small heart. Traditionally roasted over embers, which gives them a delicious sweet smokey flavor, and then peeled. Can also be blanched and peeled. Often stuffed and served as tapas. Ripen from green to red.	
Pepper	Serrano	(75-85 days)				Hot	Hotter than a Jalapeno, not as fiery as an Habanero. Flavorful 2" medium thick walled fruits can be used green or red, and are perfect for chili sauce, salsa, hot pepper vinegar, and pickles. Freezes well. Vigorous, attractive 30-36" plants.	
Pepper	Stuff Enuff, Red Bell	(60-80 days)				Mild	Big, beautiful Italian pepper up to 7" long by 5" wide. Perfect for stuffing. Plant yields loads of colossal fruit in little space. Whopping, tasty, 14 oz. fruits turn from green to red as fruits mature. Height 32"; spread 30".	
Pepper	Yolo Wonder	(75 days)				Sweet Bell	Heirloom. Large, thick-skinned, high yielding, sweet, and delicious. Can be roasted, stuffed, added to salads, or eaten as snacks. Ripen from green to red.	
Shiso	Green Shiso (Green Perilla)						Spicy oriental favorite. Distinct cinnamon/clove flavor and aroma, with the spiciness of cumin. Bright emerald leaves are slightly spicier than the red variety. 18-30" tall. (self-sows)	
Shiso	Red Shiso (Red Perilla)						Spicy oriental favorite. Distinct cinnamon/clove flavor and aroma, with the spiciness of cumin. Leaves are dark purplish-red. Red Shiso colors radish pickles and "umeboshi" plums. 18-30" tall. (self-sows)	
Squash, Summer	Early Straightneck	(42-56 days)					Heirloom. Uniform lemon-yellow lightly warted club-shaped fruits are best harvested at 4"-7" long. Firm fine-grained thick flesh, excellent quality. Bush-type plants. AAS winner in 1938.	
Squash, Summer	Magda Hybrid	(50 days)					This Middle Eastern or Mediterranean type is delicious, full-bodied, tender, and almost nutty. The fruit is shorter and much plumper than zucchini, with a creamy-green skin and pure white interior. Scrumptious fresh or cooked.	
Squash, Summer	Sunburst Patty Pan Hybrid	(50-55 days)					Beautiful butter yellow scallop-type squash. Each fruit is accented with a small dark green ring. Vigorous plants with good yields. Attractive, whether picked tiny, with the blossom still attached, or teacup-size. 1985 AAS winner.	
Squash, Summer	Zucchini, Black Beauty	(60 days)					An early vigorous bush zucchini with straight, smooth, dark-green mottled fruits. Tastiest at 6-8" with pale greenish-white, firm flesh. Easy to grow. Very prolific with heavy yields.	
Squash, Summer	Zucchini, Dark Green	(45-65 days)				OP	An early vigorous bush zucchini with straight, smooth, dark-green mottled fruits. Tastiest at 6-8" with pale greenish-white, firm flesh. Easy to grow. Very prolific with heavy yields.	
Squash, Winter	Butternut	(105 days)					Fruits weigh 3-4 lbs and are about 9" long when mature. Skin is light tan and the flesh is orange with a delicate sweet taste.	

**Partial List of Plants Available for Purchase at the 2018 Nevada County Master Gardeners Spring Plant Sale
May 12, 2018 9:00AM to Noon at the Master Gardener Demo Garden, 1036 West Main Street, Grass Valley (on the NID grounds)**

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Squash, Winter	Delicata, Bush	(80-90 days)					Nutty, sweet-potato flavor from a rich orange flesh. Productive, compact, 3 to 4 ft. semi-bush plants possess strong tolerance to powdery mildew. Striped fruits, 1-1/2 To 2 lb. and 8" long, are excellent for storage. AAS Winner.	
Squash, Winter	Jarrahdale Pumpkin	(100 days)					Slate, blue-grey, 6 to 10 lb fruit of superb quality. Their shape is flat, ribbed, and very decorative; also a good keeper. One of the more tasty varieties for a variety of savory dishes and is excellent for a year-round supply of squash, as these will often keep well over 12 months. Heirloom baking pumpkin from New Zealand is packed with rich aromatic stringless golden flesh.	
Squash, Winter	Kabocha	(95 days)					Kabocha, pronounced kah-BOH-chah, is a winter squash encased in a dull, deep green, hard, mottled skin that is oftentimes lined with pale, uneven stripes. There are also some orange skinned cultivars though the green is the most commonly produced. The skin is technically edible if cooked though most commonly it is discarded. Round and squat with a flattened top, it ranges from one to eight pounds but generally weighs an average of two to three pounds. Within the squash is a deep yellow orange flesh which surrounds a small seed cavity. When cooked the Kabocha squash offers a finely grained, dry flesh with a buttery and tender texture. Rather sweet, its rich flavor combines that of a sweet potato and a pumpkin.	
Swiss Chard	Fordhook Giant	(50-60 days)					Heirloom. Truly superior green chard for farm and garden, used since the 1750's. Heavily crumpled, very dark glossy green leaves contrast nicely with broad white succulent stems. Receives top marks for fine flavor and texture, also makes a nice poultry feed.	
Swiss Chard	Ruby Red/Rhubarb						(32 days baby leaf; 59 days bunching) Candy-apple red stems with dark-green, red-veined leaves. Great as a true red color in salad mix. NOTE: Young Ruby Red plants may bolt to seed if exposed to frosts; time sowings to avoid frost on seedlings.	
Tomatillos	Cisneros	(75 days)					Incredibly large tomatillo. Easily twice the size of most tomatillos and very productive. Apple-green fruit have a papery husk that splits open as tomatillos mature and turn yellow-green. Use in bright green stage for tartest flavor or allow to ripen further for a sweeter taste.	
Tomatillos	Gigante	(100 days)					"Gigante" has close to 50% more sugar than other tomatillos. It's also bigger and tastier than any other. Just right for chili, salsa, soups, and your favorite Latin American dishes. Size: 4" across. Height: 20-24"; Spread: 12-24".	
Tomatillos	Purple	(68-70 days)					Heirloom. Rare variety, smaller 1" fruit has sweeter flavor than green tomatillo. Makes attractive purple salsa. Easy to grow, less sticky. Start to harvest individual fruits when the husk begins to split or the fruit fills out the husk. Sweeter & darker when left on the plant longer. Try at various stages of ripeness.	
Tomatillos	Toma Verde	(60 days)					Large, flat-round green fruits. Use in salsa or Mexican cooking. A main ingredient in salsa verde. Harvest when the fruit is plump and papery husk splits. Seedier, but sweeter when left on the plant. Ripen fully for eating raw. Taste at various stages of ripeness.	
Tomato	Amos Coli		P	Heirloom	HL		Large, meaty paste tomato. Good production; dense meaty. Good for canning, sauce and fresh eating.

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Tomato	Artisan Lucky Tiger	(70 days)	C	Open Pollinated	OP		Elongated green striped cherry tomato with a striking red blush. As fruit ripens the green striping becomes more defined and the background turns red as the interior marbling develops. The overall effect when ripe is of a red tomato with prominent green striping. Excellent sweet, tart flavor. [PVP]	Indeterminate
Tomato	Aussie	(85 days)	B	Heirloom	HL		Favorite Australian plant dependably yields picture-perfect, copious amounts of 1-2 lb., glossy-red, meaty, fluted, beefsteak tomatoes loaded with delicious, bold, rich and complex tomatoey flavors. Great disease resistance.	Indeterminate
Tomato	Beefsteak	(96 days)	B	Heirloom	HL		This old favorite is the HUGE variety to grow if you want big, meaty, thick, tasty tomatoes that make thick slices for sandwiches. The fruits sometimes reach 2 lbs and have a rich tomato flavor. Vigorous plants.	Indeterminate
Tomato	Black Cherry	(65 days)	C	Open Pollinated	OP		Deep purple, mahogany- brown round cherry tomatoes. Delicious with sweet, rich, complex, full flavor. Fruit is produced in abundance on vigorous, tall plants.	Indeterminate
Tomato	Black Ethiopian	(81 days)	S	Heirloom	HL		Russian heirloom originally from the Ukraine region. Vigorous plants yield copious amounts of red-mahogany-bronze, 5-oz., plum-shaped fruit. Exceptional, rich, fruity, tangy taste. Rare.	Indeterminate
Tomato	Black Krim	(75-90 days)	B	Heirloom	HL		Heirloom from the Black Sea of Russia. Dark brown-red tomatoes are large, 10 to 12 ozs., and very richly flavored and sweet, with just a hint of saltiness. Color is darker in hot weather, and fruit seems to set well even in the heat. Prone to cracking, but a very heavy producer.	Indeterminate
Tomato	Box Car Willie	(80 days)	S	Heirloom	HL		This variety offers a very heavy crop of good-sized, smooth red tomatoes with delicious flavor, ranging from 6 to 10 ozs.	Indeterminate
Tomato	Brandywine	(78 days)	B	Heirloom	HL		The large fruits, often over 1 lb., have a deep pink skin, smooth red flesh, and luscious flavor. This "Quisenberry" strain is considered among the best.	Indeterminate
Tomato	Burpee's Big Boy	(78 days)	B	Hybrid	HY		Heavy yields of huge, smooth, deep globe-shaped fruits often weighing a pound or more. Thick, solid, bright red flesh with outstanding flavor. Excellent fresh or canned.	Indeterminate
Tomato	Camp Joy Cherry	(70 days)	C	Heirloom	HL		Full, well-rounded tomato taste. Strong growing vines bear big, heavy clusters of large-sized luscious red cherries. This special heirloom is propagated by an organic family farm.	Indeterminate
Tomato	Carbon	(76 days)	B	Open Pollinated	OP		Big, regular-leaf tomato plants yield prolific amounts of 10-14 oz., beautiful purple-brown, open-pollinated tomatoes. Delicious, rich, complex flavors. Winner of several tasting awards.	Indeterminate
Tomato	Cherokee Purple	(85 days)	S	Heirloom	HL		This large dark purple tomato from Tennessee is rumored to have come from Cherokee gardeners. Its flavor is rich and full, and often compared to Brandywine. Flesh is brick-red and very attractive sliced on a plate. Plants make large vines that yield tomatoes fully 5 inches across and 3-1/2 inches deep.	Indeterminate
Tomato	Coyote	(65 days)	C	Heirloom	HL		Delightful little cherry tomatoes are creamy ivory with hints of yellow and an absolutely unforgettable taste. The flavor is not only sweet but is also marked by a fruity complexity. They are so irresistible that you won't want to stop eating them at harvest time. Plants are large and quite prolific, bearing long clusters of these 1/2-inch delicious little treats. Heirloom variety originally from Mexico.	Indeterminate

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Tomato	Dagma's Perfection	(73 days)	S	Heirloom	HL		Vigorous and abundant producer of medium-sized, 12 oz., slightly flattened, pale-yellow fruits with delicate, light red striping. Deliciously flavorful with overtones of tropical fruit and subtle hints of lime. Firm, juicy and elegant in the mouth, and jewel-like in appearance.	Indeterminate
Tomato	Fourth of July	(49 days)	S	Hybrid	HY		Rich-flavored, 4 oz fruits ripen extra early on high-yielding plants. They are big enough for slicing and extra juicy yet firm.	Indeterminate
Tomato	Glacier	(63 days)	S	Open Pollinated	OP		Extremely early, cold-tolerant, high-yielding special strain. Begins flowering when only 4" high and bears tasty tomatoes 45 days later. Expect higher-than-average yields of 2 to 3 oz. fruits with outstanding flavor for such an early tomato.	Semi-determinate
Tomato	Godfather (aka Ravello)		B	Open Pollinated	OP		Original seeds from a tomato purchased at a roadside stand in Ravello, Italy. Medium to large & delicious.	Indeterminate
Tomato	Goose Creek	(75 days)	S	Heirloom	HL		Heirloom from early 1800s from family of edible landscape expert, Jimmy Williams, owner of Hayground Organic Gardening in California. Hot reddish pink, round, smooth and blemish free, very juicy, high yields and very few seeds. 4-10 oz. Very good flavor. Slicer.	Indeterminate
Tomato	Green Zebra	(75 days)	S	Open Pollinated	OP		Developed in 1985 by tomato breeder Tom Wagner. 2" round fruit ripens to a yellow-gold with dark-green zebra-like stripes. Flesh is lime-emerald in color with an invigorating lemon-lime flavor. Great used fresh and also great for tomato marmalade.	Indeterminate
Tomato	Isis Candy	(67 days)	C	Open Pollinated	OP		Delightful, 1" round cherry, yellow with red tinge and marbling. Gold flesh. Typically a "cat's eye" star of yellow on one end of fruit. Sweet taste is rich & fruity, delicious. Very productive thru long season.	Indeterminate
Tomato	Jasper	(60 days)	C	Hybrid	HY		2013 AAS Winner! Small, round, 3/4" red fruits weigh less than 1 oz. with sweet, rich flavor and a pleasant creamy texture. Fruits grow on small trusses, holding quality for a long time on the plant and after picking, resisting cracking and rot. Extra vigorous plants. Outstanding disease resistance.	Indeterminate
Tomato	Juliet	(60 days)	C	Hybrid	HY		Heavy yields of sweet, true red, 1 oz. oblong fruits. They arise in big clusters amid good foliage protection. Crack resistant. Juliet's full tomato flavor makes it versatile enough to enjoy a number of different ways.	Indeterminate
Tomato	Kellogg's Breakfast	(80 days)	B	Heirloom	HL		Lovely deep orange color on 1 lb. beefsteak type fruit. Tomatoes have wonderful, rich flavor and are quite meaty with few seeds. Juice has the same bright color as orange juice and is delicious.	Indeterminate
Tomato	Limmony	(85 days)	B	Heirloom	HL		Limmony is one of the first Russian varieties popularized in the US. An abundant Russian heirloom. Produces 10-16 oz., 4-5", light-yellow beefsteak. Unlike most yellows this one is loaded with lots of luscious, big sweet tangy flavors.	Indeterminate
Tomato	Marglobe	(73 days)	S	Heirloom	HL		Reliable large harvests of beautiful, tasty, globe-shaped, scarlet tomatoes with thick walls and medium size. Vines are strong and offer heavy foliage cover. Well adapted to most areas. A good canning tomato.	Determinate
Tomato	Marianna's Peace	(80 days)	B	Open Pollinated	OP		Large, 1 to 2 lb. dark pink tomatoes have luscious, full tomato flavor that features a good balance of acidity and sweetness. Vigorous potato-leaved vines are very productive.	Indeterminate
Tomato	Martha Washington	(78 days)	S	Hybrid	HY		Globe-shaped pink fruits weigh from 8-16 oz. Heirloom quality fruit with a more reliable plant. Great taste.	Indeterminate

Type	Name	Days	Tom Category	TomProp	Prop Tom	Pepper Heat	Description	TomType
Tomato	Midnight Snack, Indigo Cherry	(65-70 days)	C	Hybrid	HY		Unique indigo-type cherry tomato ripens to red with beautiful glossy black-purple overlay when exposed to sunlight. Coloration comes from the accumulation of anthocyanin pigments and contain healthy antioxidants. 2017 AAS winner.	Indeterminate
Tomato	Momotaro	(74 days)	S	Hybrid	HY		Most popular tomato in Japan. Round, medium-sized, perfectly smooth tomatoes. Taste is wonderful, intensely rich and sweet, with just the right amount of acid. Abundant crops.	Indeterminate
Tomato	Mortgage Lifter	(75-85 days)	B	Heirloom	HL		Long-time favorite with good yields of very large, smooth, pink-skinned fruits even in droughts. Very meaty fruits with few seeds. Very mild, delectable, sweet flavor.	Indeterminate
Tomato	Paul Robeson	(75 days)	B	Heirloom	HL		Named after the Black Rights activist, Paul Robeson, this Russian heirloom is an excellent choice for cooler climates as it originates in Siberia. Paul Robeson is a dark black-purple beefsteak that grows in a flattened 4" size with deep crimson center flesh. Succulent, earthy, smoky and rich are some descriptions of the flavor.	Indeterminate
Tomato	Pineapple	(85-95 days)	B	Heirloom	HL		This heirloom tomato is a stand-out in everyone's garden. Bicolored red and yellow fruit grows very large, up to 2 lbs., and is streaked with red both inside and out. Wonderful rich, fruity and sweet flavor. Strong vines bear an abundant crop.	Indeterminate
Tomato	Pink Berkeley Tie Dye	(65-75 days)	S	Open Pollinated	OP		Early, heavy producer of dark pink purple fruit with green stripes that turn a silver metallic. Very meaty port wine color interior with sweet, rich, dark tomato flavor. From Wild Boar Farms..	Indeterminate
Tomato	Red Pear	(80 days)	C	Heirloom	HL		Vines carry an abundance of miniature red, pear shaped fruit, 2" long. They are sweet and juicy and resist cracking.	Indeterminate
Tomato	Red Racer	(57 days)	C	Hybrid	HY		VFFNST. 2018 AAS winner. Cocktail size, 1.5" tomatoes have a good sweet/acid balance, weigh 2 oz., are uniform in size, and grow in clusters. Compact plants produce huge yields and are ideal for small space and container gardens.	Determinate
Tomato	Roma	(68-92 days)	P	Heirloom	HL		The standard Italian canning and paste tomato. Its vigorous compact vines produce large harvest of 3" long, pear-shaped, thick-walled, solid fruit with few seeds. This variety is highly wilt resistant.	Determinate
Tomato	San Marzano	(80 days)	P	Open Pollinated	OP		Excellent for canning, tomato paste, or puree. Rectangular pear-shaped, 3-1/2" long fruit with mild flavor and meaty texture. Bright red color. Not impressive raw but the most flavorful of cooking tomatoes. Seeds from Italy.	Indeterminate
Tomato	Sioux	(70 days)	S	Open Pollinated	OP		Originally released in 1944 by the University of Nebraska. Incredible flavor and reliably large harvests even in hot weather. Sweet yet tangy and full of rich, complex flavors. Round, red 6 oz. fruit.	Indeterminate
Tomato	Stupice	(52 days)	S	Heirloom	HL		Potato-leaf heirloom from Czechoslovakia is a cold-tolerant tomato that bears an abundance of very sweet, flavorful 2" to 3", deep red fruit.	Indeterminate
Tomato	Sun Gold	(57 days)	C	Hybrid	HY		Very sweet, bright orange cherry tomatoes taste not just sugary but also fruity and delicious. Vigorous growers, tall plants bear long clusters of fruit. A real taste treat.	Indeterminate
Tomato	Sunchocola	(67 days)	C	Hybrid	HY		Gorgeous chocolate-red, 1" fruits with a deliciously sweet, smoky flavor are very juicy and low in acid. Clusters of 8 to 12 fruits, weighing about 1 oz., are grown on high yielding plants.	Indeterminate
Tomato	Sunrise Bumble Bee	(70 days)	C	Open Pollinated	OP		Beautiful cherry-type is golden saffron with flaming crimson streaks. Fruit are 1.5" tall and 1" wide. Flavor is complex, mellow and not too sweet. [PVP]	Indeterminate
